

WORCS Round #4: (5-3-09): Milford, Ca-

Motowork's/Can-AM's West coast team made its way to the historical Honeylake Mx race track earlier this month to take part in Rnd #4 of the '09 WORCS series. Teammates Josh Frederick & Dillon Zimmerman would represent the team while off-road 3rd party "Fast Frenchman" Jeremie Warnia would join the East coast MX crew for the weekend. While Warnia was getting experience back east, Josh & Dillon were damaging the west coast terrain just 70 miles north of Reno in the northern California Sierras.

In the Pro race, Frederick would pull 6th out of the gate, but soon found himself over the bars in a tricky rock section. Like classic Josh fashion, he would remount and charge all the way back up to the top 5. After getting around traffic, Frederick was moving his way up toward Baron when bad luck struck again as Josh caught another rock, this time damaging the CAN-AM 450. Frederick was able to salvage the quad and finish a remarkable 2nd place.

"I just don't know how he does it. I have watched him time after time, crash and think well, that was a fun day. Then before I know it, he is back in second or even charging for the lead. Josh rode well for what he had to deal with today. I'm looking forward to the trees, because he always tends to do really well in Washington." Motowork's Race Manager- Ty Zimmerman

In the Pro-Am class, Dillon Zimmerman continues to dominate as he is looking forward to his transition in the Pro ranks. Will it be this year? Will he finally grab that Pro-Am championship and transfer out. We can't wait. This kid rips and he has a huge drive of determination to represent his team and sponsors to his fullest potential. Congratulations to Josh & Dillon on great weekend at Honeylake.

2009 Race Schedules

2009 WORCS schedule:

PIAA 8-hr: 1/10/09- Phoenix, Az
 Rd #1: 1/23-25/09- Phoenix, Az
