

ITP Round #6: (8-09-09): San Bernardino, Ca-

Lake Elsinore, Ca- 8/20/09: Motowork's west coast team took on Round 6 of the ITP/Yamaha Quadcross series earlier this month. Team leader/Pro pilot Jeremie Warnia secured top spots in both 450 Pro Production & Open Pro classes over the weekend span. Warnia captured a 2-1 finish in both classes to secure Overall wins in both ventures. Warnia continues to lead the points in Pro Production & Open Pro in ITP. Dillon Zimmerman made his return to the podium capturing a win in 450 Exp keeping him in the points hunt for 2009. Frederick who is healing up from a ITP crash earlier this year will most likely make his return to the series come Sept. 19th in Surprise, Az.

WORCS Round #6: (8-16-09): Olympia, Wa-

Lake Elsinore, Ca- 8/20/09: Motoworks headed north to the beautiful northern Cascades located just 30 miles south of the Washington border at a well know and very liked track, Straddleline ORV Park. This would mark the heavily anticipated return of Josh Frederick, who was coming off a leg injury from round 3 of the ITP Quadcross series. Along with Josh, Jeremie "Frenchie" Warnia & Pro-Am pilot Dillon Zimmerman made the hall to collect more hardware for the Motowork's office lobby. Warnia rode a solid and consistent race to finish 2nd O/A, while frederick salvaged crucial Championship points with a 5th & Dillon Zimmerman pulled back on top to capture his first win back since injury at his last ITP round as well.

"The team did extremely well this weekend. Warnia rode as hard as he could, but just couldn't real in Borich today. We are really proud of Dillon for rebounding with his win in Pro-AM and very happy for Josh for regaining the confidence and finishing a solid 5th. He is very determined and I wouldn't count him out of this WORCS championship just yet. He still has a lot of drive left in him for these final two rounds." Ty Zimmerman of Motoworks.

Josh Frederick returns to action
