

RACE REPORT

Hurricane Mills, TN: 8/16/09-
The Can-AM/Motoworks's East coast MX team traveled back to the epic Loretta Lynn's Dude Ranch to take part in the final round of 2009 ITP/Moose Racing AMA-ATV Motocross Nationals. Riders Jeremy Lawson & Brandon Smith would battle the hot summer heat and track conditions to cap off the first year for the Motoworks MX team. Smith rode consistent as he posted a 12-6 for 9th O/A on the weekend. Meanwhile teammate Lawson ran into a few problems where he managed to salvage a 18-17 for 18th O/A. The Motoworks team finished out the season gaining much needed experience and most of all respect in this highly competitive East Coast series. The team did a fantastic job on management and strategically making a huge effort on both the west coast and east coast in 2009. Look for Motoworks to come out swinging next year in the AMA-ATV MX series and bringing with them a whole new game plan. Motoworks would like to thank their entire sponsor line-up, friends, family and fans of the sport for this year.

Smith shown here at Loretta Lynn's

"We had a really good year, for being our first. We have a great group of guys, and from the ladies in the office, to the folks behind the scenes at the shop to Brandon & Jeremy, everyone works hard and in the end that is what matters. That hard work will pay off and Johnny and I are already looking ahead and getting a jump on 2010. I just want to thank Johnny for assembling a great team and sticking behind us through everything." Ty Zimmerman of Motoworks
